Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pacific Islands Region Vessel and Gear Identification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before (insert date 60 days after date of publication in the FEDERAL REGISTER).

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0360 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Walter Ikehara, Fishery

Information Specialist, National Marine Fisheries Service (NMFS), Pacific Islands Region, (808) 725-5175, walter.kehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) established the Western Pacific Fishery Management Council (Council), to develop fishery ecosystem plans (FEP) for fisheries in the U.S. Exclusive Economic Zone (EEZ) and high seas of the Pacific Islands Region. These plans, when approved by the Secretary of Commerce, are implemented in Federal regulations by NMFS and enforced by NOAA's Office of Law Enforcement (OLE) and the U.S. Coast Guard (USCG), in cooperation with state and territorial agencies. The FEPs and Federal regulations are intended to prevent overfishing and to ensure the long-term productivity and social and economic benefit of the resources.

Regulations at 50 CFR 665.16, 300.35, and 300.217 require that all U.S. vessels with Federal permits fishing for western Pacific fishery management unit species display identification markings on the vessel. Each Vessel registered for use with a permit issued under Subparts B through E and Subparts G through I of 50 CFR 665, must have the vessel's official number displayed on both sides of the deckhouse or hull, and on an appropriate weather deck. Regulations at 50 CFR 300.35 require that each vessel fishing under the South Pacific Tuna Treaty must display its international radio call sign on the hull, the deck, and on the sides of auxiliary equipment, such as skiffs and helicopters. Vessels fishing for highly migratory species in the Western and Central Pacific Fisheries Commission (WCPFC) Convention Area and in international waters must comply with the regulations at 50 CFR 300.217 requiring the display

of the vessel's international radio call sign on both sides of the deckhouse or hull, and on an appropriate weather deck, unless specifically exempted. In each case, the numbers must be a specific size and in specified locations. The display of the identifying numbers aids in fishery law enforcement.

The regulations at 50 CFR 665.128, 665.228, 665.428, 665.628, and 665.804 require that certain fishing gear must be marked. In the pelagic longline fisheries, the vessel operator must ensure that the official number of the vessel is affixed to every longline buoy and float. In the coral reef ecosystem fisheries, the vessel number must be affixed to all fish and crab traps. The marking of gear links fishing or other activity to the vessel, aids law enforcement, and is valuable in actions concerning the damage to or loss of gear, and civil proceedings.

II. Method of Collection

The vessel owner or crew paint the identification markings on each vessel and associated equipment and gear. NMFS collects no other information.
